The imageRUNNER 1370F operates at a speed of 13 pages per minute, and comes equipped with productivity enhancing features, such as Super G3 Fax capabilities and a 30sheet Automatic Document Feeder. Other standard features include 16 MB of copier memory, a copy resolution of 1200 x 600 dpi interpolated and a print resolution of 2400 x 600 dpi interpolated, a 500sheet useradjustable paper cassette, and a 100sheet Stack Bypass for transparencies, letterhead and specialty stocks. The space saving desktop design and intuitively designed userinterface allows users to perform all functions with ease. An optional cabinet is available for those wishing to place the imageRUNNER 1370F in a common area. Printing is made simpler and smarter than ever via builtin parallel and USB Interfaces and Canons Advanced Printing Technology CAPT. An optional Network Adaptor, is available to accommodate the needs of businesses needing a shared network printer. The imageRUNNER 1370F is the compact device that is affordable, reliable and easy to maintain. <http://hygradeinsulators.com/images/uploads/i865-service-manual.xml>

• 1.0.

The ADF accepts statement, letter and legal sized paper. An optional cabinet is available for those who wish to raise the height of the main unit to make it comfortable for walkup users. Direct printing is available via builtin parallel and USB ports. By adding the optional AXIS 1610 Print Server, the imageRUNNER 1330 can be transformed into a shared network printer to serve the needs of multiple network connected users in a workgroup. Scroll down to easily select items to add to your shopping cart for a faster, easier checkout. Visit the Canon Online Store. No part of this service guide may be reproduced or transmitted in any form by any means, electronic or mechanical, for any purpose without the prior written consent of Canon U.S.A., Inc., except as expressly permitted herein. Canon is a registered trademark of Canon Inc. Product Overview The imageRUNNER 1300 Series includes the imageRUNNER 1310, imageRUNNER 1330 and imageRUNNER 1370F and are the new digital models in Segment 1. These models offer superior image quality at the speed of up to 13 pages per minute. Each model of the imageRUNNER 1300 Series includes, as standard, copying and printing capabilities. The imageRUNNER 1330 and imageRUNNER 1370F include a 30sheet ADF. The imageRUNNER 1370F has a full featured, comprehensive Super G3 fax functionality. Canon Advanced Printing Technology CAPT is a new printing technology developed by Canon to produce high image quality prints without the use of PDL's. These models can supply up to a total of 600 sheets of paper from the standard 500sheet paper cassette and a 100 sheet stack bypass. http://lhdum.com/User_File/UpFile/20201203012743_aTg3NS1tYW51YWw=.xml

The AXIS 1610 connects directly to any Canon CAPT printer without any additional cabling. The AXIS 1610 is small and compact, equipped with one high speed parallel port connector that plugs directly into the imageRUNNER's parallel port. 2. Cabinet An optional Cabinet is available if desk space is limited. A convenient feature for those that require and frequently use different sized papers such as Letter and Legal. Reference Guide U.S. English Fax Guide U.S. English im ageRUNNER 1370F only. Quick Start Guide U.S. English CD User Software im ageRUNNER 12001300. Installation Check List. Registration Card for U.S.A. Registration Card for Canada. Different Size Originals No Acceptable Paper Weight 14 32 lb. Service Features A. Serviceability The im ageRUNNER 1300 Series does not require scheduled servicing, however, the enduser should perform the suggested maintenance as shown below when required. B. Suggested End User Maintenance The end user should perform the following on a regular basis as necessary so that the machine may be kept in the best operating condition at all times. If a problem is not initially resolved, it will be escalated to the CUSA Engineering Group. At this point, a Digital Solutions Specialist may be dispatched as needed. V. Service Policy A. Dealer Technical Support The following support mechanisms have been established to deliver high quality and timely technical support services and product information to imageRUNNER 1300 Series dealerships. These support services cover areas such as system and user software, networking and connectivity issues, electro mechanical operations, and other hardware servicing issues. B.

Escalation Procedure The Canon Connectivity escalation procedure diagrammed below will be utilized for the support of the imageRUNNER 1300 Series. Technical Training A. Overview The im ageRUNNER 1300 Series Training Program is a Computer Based Training CBT solution that will provide the basic knowledge required to properly operate, maintain, and service the imageRUNNER 1310, imageRUNNER 1330 and imageRUNNER 1370F models. The Technician can easily access each of its modules from the main menu as well as navigate to a specific subject. Technicians can easily maneuver through this course, which will focus not only on digital technology, but also on disassembly of major components needed to repair this machine. B. Certification The purchase and successful completion of the CBT training package is your only requirement. C. Prerequisites The training program assumes that imageRUNNER Connectivity Quest has already been successfully completed by the student. D. What You Will Learn You will learn the necessary skills to deliver effective field service as well as the operation of the imageRUNNER 1300 Series models, including important disassembly and troubleshooting skills. This course uses some of the latest technology in the interactivity of the disassembly techniques that will have you not only seeing how the machine is disassembled but allows you to take part in this process. E. Training Facilities This self paced CBT course can be conducted at any facility that is suitable for student learning. F. Course Format The imageRUNNER 1300 Series course is a Computer Based Training Course. Minimum 32MB RAM ! Minimum 8X CDROM drive. Sound Card ! External or builtin speakers or headphones. Color Monitor set at 800 x 600, High Color H. Course Highlights The following are the Course Highlights for the imageRUNNER 1300 Series program. Students may work at their own pace. ! The Image Formation Process is reviewed. !

Assembly and Disassembly sequences are structured for students to perform stepby step techniques on training machines. ! Maintenance, Adjustment and Replacement procedures for each major machine area. Troubleshooting Scenarios are presented for application of knowledge and skills. I. Materials The Part Numbers for the imageRUNNER 1300 Series Training Course are as listed below. Item Part Number 2 Computer Based Training Program IU80004000 Service Manual FY813HU000 Parts Catalog FY831FX000 Service Requirements A. Authorization Policy To become authorized and maintain authorization to service the imageRUNNER 1300 Series, each Authorized Reseller's location must have at least one employee w

who has successfully completed the imageRUNNER 1300 Series Computer Based Training Program and received certified status. Canon U.S.A., Inc. recommends that the Service Technician who is certified to service the product have strong computer and networking skills. During such warranty period, Canon shall replace, without charge, any defective part with a new or comparable rebuilt part. This warranty shall not extend to consumables such as paper, chemicals, and toner as to which there shall be no warranty or replacement. Warranty replacement shall not extend the original warranty period of the Product. This warranty shall only apply if the Product is used in conjunction with compatible computers, peripheral equipment and software. Canon shall have no responsibility for such items except for compatible Canon brand peripheral equipment covered by a separate warranty "Separate Warranty". Repairs of such Canon brand peripheral equipment shall be governed by the terms of the Separate Warranty. This warranty does not cover the Canon Drum Unit for the Product, for which a separate warranty is given.

Nor does this warranty extend to any Product on which the original identification marks or serial numbers have been defaced, removed, or altered. THIS WARRANTY APPLIES TO PRODUCTS SOLD AND USED IN THE U.S.A. AND CANADA ONLY. CANON U.S.A., INC. One Canon Plaza Lake Success, New York 11042 The Credit shall be a percentage of Canon's then current dealer price for the replacement Drum Unit determined as set forth in the example below. Warranty replacement shall not extend the original warranty period of the Drum Unit. Credits will be based on the then current dealer price for the replacement Drum Unit, and will be prorated based on the copies made as indicated by the service report submitted by the Canon Authorized Service Representative. EXAMPLE OF CREDIT Drum Unit inoperative after 9,600 prints or copies or a combination of both in less than ONE YEAR of use. Data is subject to change depending upon many factors including, without limitation, monthly copy volume, environment, type of image printed and customer handling of the equipment. We hope that this CANON IMAGERUNNER 1370F user guide will be useful to you. The machine illustration on the cover may differ slightly from your machine. Introduction Table of Contents. Table of Contents Index 322 Introduction You can create scan areas cropping areas for images shown in the Preview Area. Creating Multiple Cropping Frames. You can create another cropping frame even if there is already one in the Preview Area. Click and drag the mouse cursor outside the existing cropping frame to create a new cropping frame in that area. Scanning will continue until all selected areas have been scanned. The most recently created cropping frame will become the focal point. To make adjustments to previously created cropping frames, select the frame or frames by clicking on them. After previewing, click Auto Crop on the toolbar. Clicking this button enables you to gradually crop off the image outside the borders detected in the preview image. Troubleshooting Creating a Cropping Frame. Click Crop on the toolbar, click on the preview image and drag over the area you wish to select. To move the cropping frame you have selected, click inside the cropping frame and drag. Introduction Deleting Cropping Frames. If you want to remove cropping frames, select the frame or frames and do one of the following Introduction Favorite Settings.

Favorite Settings enables you to save a set of settings Input Settings, Output Settings, Image Settings and Color Settings made for the focal cropping frame. If there are no cropping frames, settings for the whole preview area are saved. You can also recall the saved settings and apply them to the selected frames or the whole preview area. Selects where the document is placed. Selects the size and orientation of the original document. Reduces the dust and scratches on photos. This may remove delicate parts of the image. Introduction Rebuilds the color quality that has faded over time. It also increases saturation of dull-colored originals to reproduce a vivid image. This may change the tone of the image. This may lower the image sharpness and tonal quality. The density of dots for any given output device, expressed in terms of dots per inch dpi. Low resolution causes font characters and graphics to have a jagged appearance, but prints faster than higher resolutions. Higher resolution provides smoother curves and angles as well as a better match to traditional typeface designs, but prints more slowly. Resolution values are represented by horizontal data and vertical data, for example, 600 x 600 dpi. Troubleshooting Printer driver.
